

GRITESH PRASAD KUMHAR

Senior Full Stack Developer

+91 9593238433

griteshprasad1@gmail.com

Siliguri, West Bengal, India

SUMMARY

Experienced Full Stack Developer with a strong background in **Java, Spring Boot and Angular**. Proven track record of **leading teams**, building scalable applications, and integrating technologies like **JWT, AWS, and MSSQL**. Skilled in developing robust **front-end interfaces, back-end microservices, and optimizing performance in a collaborative global environment**.

SKILLS

- **Development Frameworks:**
 - Springboot
 - Angular
- **Testing Frameworks:**
 - JUnit
 - Mockito
 - JMeter
- **Source and Version Control:**
 - Git
 - GitLab, GitHub
- **Programming Languages:**
 - Java
 - Javascript, Typescript
- **Databases:**
 - MySQL, MSSQL
- **Java Based:**
 - Multithreading & Collections
 - Aspect Oriented Programming
 - Rest APIs & Web Security
 - Microservice Architecture
- **API Clients:**
 - Swagger
 - Postman
 - Bruno
- **Others:**
 - HTML, CSS

EDUCATION

Lovely Professional University

Bachelor of Technology 2015 – 2019

PROFESSIONAL EXPERIENCE

Senior Software Engineer - [India Tech Lead]

NielsenIQ | September 2023 - Present

- Building a platform from the ground up to direct our main application to qualified users, utilizing key technologies such as **Java, SpringBoot, and MSSQL**, with additional experience in Azure.
- Collaborating with a diverse **team of 10 global experts** while **leading a team of 4 in India** to achieve impactful project results and promote a high-performance culture.

Software Development Engineer

Majorel India | July 2021 - August 2023

- Designed and developed a user-friendly, dynamic, and robust application interface using **Angular 13 and Node.js**, integrating widely used libraries for **authentication, data visualization**, and more.
- Built secure, **high-performance backend microservices** for data processing and request handling using **Java 8 and Spring Boot 2**.
- Independently developed a **multithreaded** logging module using **AOP**.
- Worked extensively with **Java Collections, Java Concurrency, AOP, JWT Authentication, AWS SDK, REST APIs, custom exception handling, Rest Template, caching systems, Spring Security, JUnit 4/5, JDBC**, and various other Java/Spring Boot features and libraries.
- **Integrated AWS APIs (S3 and CDN)** and implemented **JWT-based request authentication** for the backend application.
- Utilized **MySQL 5** database for application and customer data storage.

Programmer Analyst

Cognizant Technology Solutions | July 2019 - July 2021

- Worked as a **Java - Angular** Full Stack Developer.
- Developed a robust and reliable internal Employee Monitoring Tool in a team of 6.
- **Migrated the application** from monolithic architecture to micro-service architecture.
